

LEATHER BRANDING TOOL

USER GUIDE

SAFETY PRECAUTIONS

CAUTION:

Hot tool can cause severe burns. Use carefully and keep away from combustible materials. Always place hot tool on the stand when not in use.

Do not touch point or metal parts when in use, as tips are hot and may cause injury. Use caution when handling, as tips contain sharp or pointed edges.

Unplug after use and never leave hot tool unattended.

Do not allow tool to come in contact with any liquid or immerse in water as it may cause damage or electric shock.

Always allow the tool to cool down completely before changing tips or storing. Once completely cool, use pliers to remove points after every use to prevent them from getting stuck in tool.

This is not a toy and is not intended for use by children 14 years or younger without adult supervision.

If power cord is damaged DO NOT USE. Do not attempt to replace the power cord. If the tool, accessories or cord is damaged please contact customer service.

Always use tool on a clean, level and heat resistant surface.

Do not allow power cord, loose hair, draping jewelry and clothing to interfere in work space.

Not for use on soft leather, suede or vinyl materials.

INSTRUCTIONS

1. Use pliers to screw a point onto the tip of tool.
2. Plug the tool into a standard 120Volt, 60Hz wall outlet. Make sure the voltage indicated on the tool corresponds to the local voltage before you connect to the power source.
3. Please note it may take several minutes for the tool to heat completely. Let the tool rest on the provided stand while it heats up.
4. Do not touch the point or metal parts of the tool after you have plugged it in.
5. Always practice a new technique on a sample piece of material before beginning your project.
6. When using, hold the tool as you would normally hold a pencil.
7. When finished using, unplug and allow to cool completely on the stand provided before storing.

WARNING: CHOKING HAZARD – Small parts. Not for children under 14 years or younger without adult supervision.
